

JOMSOCIAL DEVELOPMENT TIMELINE.

April 2012 - Sept 2013

This document is intended to shed light on our plans for JomSocial over the course of September 2012 to September 2013, to coincide with Joomla 3.5 LTS release.

It covers **the JomSocial component for Joomla**, and our brand new **JomSocial Hosted**, a social networking service in a hosted environment.

JOOMLA! RELEASE SCHEDULE

JOMSOCIAL MILESTONES

Version	Release date	Joomla version
2.4	November 2011	1.5, 1.6, 1.7, 2.5
2.6	April 2012	1.5, 1.6, 1.7, 2.5
2.8	October 2012	2.5
3.0	April 2013	2.5*
3.5	September 2013	3.5*

**subject to change*

JAN 2012
Joomla! 2.5
Long Term Support LTS

SEPT 2012
Joomla! 3.0
Short Term Support STS

Joomla 3.0 features built-in Bootstrap support that would allow Joomla websites to be mobile ready and responsive.

Joomla 3.0 is a short term release that should only be used by early adopters, developers and experienced users.

MAR 2013
Joomla! 3.1
Short Term Support STS

Plans are not yet announced by the Joomla Core Team.

Joomla 3.1 is a short term release that should only be used by early adopters, developers and experienced users.

SEP 2013
Joomla! 3.5
Long Term Support LTS

NOVEMBER 2008
JomSocial 1.0

JomSocial 1.1
JomSocial 1.2

July 2010
JomSocial 1.8
goes GNU/GPL

April 2011
JomSocial 2.2

April 2012
JomSocial 2.6

October 2009
JomSocial 1.5

January 2010
JomSocial 1.6

NOVEMBER 2010
JomSocial 2.0

November 2011
JomSocial 2.4

OCT 2012
JomSocial 2.8

JomSocial 2.8 undergoes a surgery to cleanup legacy Joomla 1.5 codes, interaction improvements, Facebook Connect overhaul, and I/O enhancements.

This version does not support Joomla 1.5, 1.6 and 1.7.

APR 2013
JomSocial 3.0

JomSocial 3.0 will showcase **Bootstrap** support that was introduced in Joomla! 3.0. With the release of Joomla! 3.1, we hope that the new Bootstrap feature matures and ready by now.

This version does not support Joomla 1.5, 1.6 and 1.7.

SEP 2013
JomSocial 3.5

HOSTED EXPERIMENT BEGINS

PHASE 1
JOMSOCIAL HOSTED OPERATIONAL

Basic social backbone completed with 14 new components on an extended and optimized Joomla system

Technology transfer from Hosted back to JomSocial

Input/Output enhancements, interaction improvements

Once a feature is deemed stable and performs well in large Hosted environment, it is now a **Graduate**, and will be pushed to the JomSocial Component.

PHASE 2
JOMSOCIAL HOSTED Monetization features

Experiments on monetization features to allow community owners to generate income and to have a highly visible ROI

Technology transfer from Hosted back to JomSocial

Bootstrap experiments, profile/group/events vanity improvements, scalability experience

PHASE 3
JOMSOCIAL HOSTED Ecosystem buildup

Bazaar, a platform for community owners to customize themes and try new Hosted Widgets.
